

# Electromechanical Industrial Workstation

Model: 902F

DAC Worldwide's Electromechanical Industrial Workstation (902F) is a heavy-duty, multi-functional training workstation that accommodates many DAC Worldwide mechanical and electrical products. It includes two shelves, a t-slot rail set, and leg levelers.

Allowing for configuration in a variety of ways and incorporating heavy-duty construction techniques, the Electromechanical Industrial Workstation allows training to occur more conveniently and efficiently.

Heavy-gauge steel shelves with mounting holes allow for direct mounting of all mechanical product baseplates, as well as for storage of loose components and tools. 14-gauge, tubular steel support frames, in combination with premium, non-slip levelers, ensure a stable foundation.

Optional components allow the Electromechanical Industrial Workstation to be modified for other purposes, including use as a mounting/display rack or as a workstation for motor and motor control training products.

---

## **FEATURES & SPECIFICATIONS**

- Two 12-gauge, 18" x 48" x 1" deep, formed-steel shelves with provision for mounting all mechanical product baseplates.
- Two welded support frames fabricated from 14-gauge, 1-1/2" square steel tubing.
- High-durability, powder-coated surfaces throughout, allowing for repeated use and rough handling.
- Four 2"-diameter levelers with vibration dampening, anti-skid pads and leveling lock nuts.
- Provision for mounting electrical products using optional t-slot rail set.
- Provision for mounting all DAC Worldwide cutaway products using optional t-slot rail set.
- Provision for mounting all primary mechanical training components directly using optional extended t-slot rail set.
- Hardware pack, including sufficient hardware for mounting a variety of devices.

- Fastener kit.
- Assembly instructions.
- Shipped knock-down.
- Packaging for shipment via motor freight.

## **PRODUCT DIMENSIONS**

- **Product Dimensions**  
(L x W x H)  
51in. x 26in. x 39.5in. (1300 x 660 x 1010 mm)  
110lbs. (50kg)
- **Shipping Dimensions**  
(L x W x H)  
51in. x 28in. x 10in. (1300 x 720 x 260 mm)  
160lbs. (73kg)

## **OPTIONS**

- #902-001 - Locking caster set (includes four, dual-wheel, locking casters) (recommended when used as a display rack only).
- #902-002 - Supplemental t-slot rail set (includes four 1.5" square, 48" long, t-slot mounting rails).
- #902-002E - Supplemental t-slot rail set, economy (includes two 1-1/2" x 1-1/2" x 48" t-slot mounting rails).
- #902-003 - Supplemental t-slot rail set, extended (includes six 1-1/2" x 3" X 43" t-slot mounting rails, creating a 9" wide mounting area on two shelves).
- #905-007 - Electrical supply panel, with disconnect (allows connection of two 220 VAC twist-lock electrical devices, one 110 VAC twist-lock electrical device, and three 110 VAC standard plug devices) (includes safety switch, fuses, and provision for lock-out/tag-out).
